

Quality Management Policy Statement

We at National contracting and Industrial CO. have established a Quality Management System and are committed to continuous improvement by providing a framework for measuring and enhancing our services. We have the attached Quality Manual and Procedures in place to support our aim in meeting total customer satisfaction throughout our activities.

National contracting and Industrial CO. Quality Policy calls for frequent development of Quality Management System that warrants efficiency in our activities. Our business will be led according to the following principles:

- To comply with all applicable statutory laws and regulations of the United Arab Emirates.
- To comply with the requirements of International Quality System (ISO 9001:2015) and related standards.
- To ensure that our activities are safe for our personnel, the principal's representatives, and others who come into contact with our business activities.
- To work faithfully with our clients, and suppliers/principals to achieve the highest Quality standards.
- To train our personnel to comply with the requirements of the Quality Management System and to ensure that the same is properly communicated and understood throughout our organization.
- To conduct all business activities to a high professional standard with technical and commercial integrity.
- To provide professional products/services by qualified team.
- To adhere to an effective response commitment to Client Complaints.

This policy is approved by the undersigned and is supported by all levels of management within our organization. All personnel shall be guided by the contents of this Quality Management System, and they are accountable to its implementation and development.
